Nutritional behavior of sports students in Karlsruhe

An empirical study on dietary patterns, nutritional motives, and self-perceived physical-sporting performance

Hannah Zimmermann, Annelie Speckmaier, Karin Bergmann, Klaus Bös

	Recreational sports (n = 110)			Competitive sports (n = 82)		
	Vegetarian	Omnivore	Total	Vegetarian	Omnivore	Total
Male (n = 76)	11	27	38	11	27	38
Female (n = 116)	45	27	72	22	22	44

Survey on eating habits → questionnaire_BA_AS_SP

Page 01

1. What type of device are you using to participate in this survey?

- computer
- tablet/smartphone

Page 02

Dear Participant,

My name is Annelie, and I am studying Sports Science at KIT. As part of my bachelor's thesis, under the supervision of Prof. Dr. Klaus Bös and Hannah Kron, I would like to learn more about your eating behavior.

This survey contains 28 questions and takes about 5-10 minutes to complete.

For the success of the study, it is important that you complete the questionnaire fully and do not skip any questions. All data will be collected anonymously, cannot be traced back to you, and will be treated confidentially.

Please only fill out the survey if you are studying sports in Karlsruhe (at the university or the PH).

The goal of this survey is, among other things, to create a representative representation of the eating behavior and fitness level of sports students in Karlsruhe.

Thank you for your participation!

What sport do you currently practice?

Select the sport(s) that you practice most intensely/most frequently.

Multiple answers are possible.

- Endurance sports (e.g., long-distance running, cycling, cross-country skiing, ...)
- Strength training (e.g., weightlifting, bodybuilding, calisthenics/bodyweight training, ...)
- Explosive power sports (e.g., shot put, jumping disciplines, short sprints, gymnastics, ...)
- Team sports (e.g., football, handball, volleyball, tennis, ...)
- Combat sports (e.g., wrestling, judo, karate, boxing, ...)
- Other sports/ unclassified (e.g., archery, sailing, motorsport, horseback riding, ...)

How often do you train per week?

- Never
- Irregularly
- Less than once a week
- 1-2 times
- 3-4 times
- 5-6 times
- Every day
- Multiple times a day

At what level do you practice your sport?

Check: I practice the above-mentioned sport at...

- Recreational level**
(No competition/performance orientation, e.g., school sports, company sports, recreational sports)
- Competitive level**
(Competition performance and success are the focus, e.g., league play, high time commitment)
- Elite level**
(International competitions following a structured system, organized by (inter)national sports federations)
- Professional level**
(Professional sports, sport as a primary activity, usually earning a livelihood through sports)

What aspects of nutrition are important to you?

A healthy diet

completely unimportant				very important
------------------------	--	--	--	----------------

A balanced diet

completely unimportant				very important
------------------------	--	--	--	----------------

A conscious diet

completely unimportant				very important
------------------------	--	--	--	----------------

A meat- and fish-free diet

completely unimportant				very important
------------------------	--	--	--	----------------

A meat- and fish-inclusive diet

completely unimportant				very important
------------------------	--	--	--	----------------

An ecologically sustainable diet

completely unimportant				very important
------------------------	--	--	--	----------------

How do you primarily eat?

- Vegetarian (Consumption of animal products like milk, cheese, eggs, etc., no consumption of meat and fish)
- Omnivore (Eats everything)
- Vegan (No consumption of animal products like milk, cheese, eggs, etc., no consumption of meat and fish)
- Pescatarian (Consumption of fish, animal products like milk, cheese, eggs, etc., no consumption of meat)
- Other:

How often do you consume animal-based foods?

Animal-based products (e.g., milk, cheese, etc.), not including meat and fish.

- Never
- Less than once a week
- 1-2 times a week
- 3-4 times a week
- 5-6 times a week
- Every day
- Multiple times a day

How often do you consume meat?

This refers only to the consumption of meat, not other animal products (fish is not included here).

- Never
- Less than once a week
- 1-2 times a week
- 3-4 times a week
- 5-6 times a week
- Every day
- Multiple times a day

How often do you consume fish?

This refers only to the consumption of fish and seafood, not other animal products.

- Never
- Less than once a week
- 1-2 times a week
- 3-4 times a week
- 5-6 times a week
- Every day
- Multiple times a day

Would you like to change something about your eating habits?

What would you like to change about your eating habits?

I would like to ...		Change nothing			
Eat less meat	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Eat more meat	
Eat less fish	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Eat more fish	
Eat less fruit and vegetables	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Eat more fruit and vegetables	
Eat less animal products (e.g., eggs and dairy)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Eat more animal products (e.g., eggs and dairy)	

How long have you been following your stated eating habits?

[please select] ▼

Have you noticed any changes since adjusting your diet?

If you have never changed your diet, please simply select the option *no changes*.

On a mental level

negative changes

no changes

positive changes

On a physical level

negative changes

no changes

positive changes

What aspects of nutrition are important to you?

I am convinced of my eating habits

**I absolutely
don't agree**

**I completely
agree**

I want to maintain my current eating habits in the long term

**I absolutely
don't agree**

**I completely
agree**

I am just trying out my current eating habits

**I absolutely
don't agree**

**I completely
agree**

I want to maintain my current eating habits only for a certain period of time

**I absolutely
don't agree**

**I completely
agree**

What are the reasons for your eating habits?

Multiple answers are possible

- Religion
- Social environment (friends/family)
- Animal welfare
- Taste preferences
- Performance improvement
- Sustainability/Ecology
- Weight loss
- Diet (doctor prescribed)
- Health
- Other

How much influence does your environment have on your eating habits?

Check how much influence the people in your environment have on your diet.

	no influence			very strong influence	
Family and partner	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Friends	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Co-workers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Classmates	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Media	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Do you take dietary supplements?

How often do you take dietary supplements?

- Never
- Irregularly
- Less than once a week
- 1-2 times a week
- 3-4 times a week
- 5-6 times a week
- Every day
- Multiple times a day

Which dietary supplements do you take?

Multiple answers are possible

- Prescription-required
- Non-prescription
- Protein shakes
- Vitamin supplements
- Mineral supplements
- Other

2. Additional (optional): What dietary supplements do you take?

Why do you take dietary supplements?

Multiple answers possible

- Athletic benefits (e.g., muscle growth, etc.)
- For health benefits (personal choice)
- Medically necessary (prescribed by a doctor, diagnosed deficiency, etc.)
- Other

-
- Prefer not to answer

Which statement applies to you? Please indicate how much you agree with each statement.

	I absolutely don't agree					I completely agree				
I generally feel physically fit.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I consider my athletic performance to be very good.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I assess my physical endurance as very good.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I consider my ability to recover after physical exertion to be very good.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I usually feel capable of completing a sports session.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I feel fully capable of handling athletic challenges.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I believe that with proper preparation, I could successfully complete a marathon.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I would perform well in athletic performance tests (e.g. lactate test, spiroergometry, Cooper test, stress ECG, etc.).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I can consistently perform at my full potential in training.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I experience breathing difficulties during physical exertion.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I have bone or joint problems during athletic activities.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I often feel physically low on energy.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I find it difficult to jog several kilometers (5-10 km) without taking a break.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I struggle to carry a heavy shopping bag (8 kg) up several flights of stairs.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I can lift a heavy suitcase over my head (e.g., onto a luggage rack in a train).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I can stand on one leg without holding onto anything (for at least 15 seconds).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I can dribble a ball while walking quickly (like in basketball).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I can do a proper cartwheel.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I can touch the ground with my hands while standing with straight legs.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I can reach my shoulder blade from below with my hand behind my back.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

I can lift a dumbbell heavier than my body weight.

<input type="radio"/>				
-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

I would perform well in a speed test measuring 100m sprint performance.

<input type="radio"/>				
-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

Over a short distance (up to 50m), I am slower than most of my fellow students.

<input type="radio"/>				
-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

I am good at sports that require quick reactions and movement (e.g., fast direction changes, short sprints, like in tennis, soccer, etc.).

<input type="radio"/>				
-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

How old are you?

[please select] ▼

What is your gender?

- female
- male
- divers

prefer not to answer

How tall are you (in cm)?

[please select] ▼

How much do you weigh (in kg)?

[please select] ▼

What best describes your current living situation?

Please select the option that best applies to you.

- Shared apartment/dormitory
- Alone
- With partner
- With family

At which institution are you studying?

Institution [please select] ▼

Which degree program are you enrolled in?

degree program [please select] ▼

F _{Level x Diet}			2.11	0.11
F _{Gender x Level x Diet}			1.06	0.51
r ²			11.9%	0.6%

Tab. e8b: Self-perceived physical sporting performance (mean values [MV] and standard deviations [SD]) and differences between gender, performance level, and dietary pattern (three-factor analysis of variance [ANOVA])

Response scale: 1 = I absolutely don't agree to 5 = I completely agree
 Significant differences ($p < 0.05$) are marked with one asterisk (*), highly significant differences ($p < 0.001$) are marked with two asterisks (**).
